Parikshit Jangid

Jaipur, Rajasthan — GitHub: parikshitjangid — email@example.com — +91-XXXXXXXXXX

EDUCATION

JK Lakshmipat University, Jaipur 2024 – Present
B.Tech in Computer Science and Engineering (Second Year)
CGPA: 8.5
Class XII (CBSE) - 95.2% — Class X (ICSE) - 91.0%

PROJECTS

DBMS from Scratch GitHub
– Tech Stack: C Programming, Data Structures, File I/O.
– Engineering custom Database Management System with B+ tree indexing for optimized retrieval and buffer pool management.
– Developing transaction handling with ACID properties and concurrent access control mechanisms.

LNM Hacks – ViralTracks GitHub
– Tech Stack: JavaScript, Blockchain (Monad), Web3.js, Node.js.
– Built decentralized viral content tracking platform for Monad blockchain track during LNM Hacks 8.0 (36-hour hackathon).
– Engineered smart contracts for immutable content tracking and implemented analytics dashboard for spread visualization.

Waste Classification System GitHub
– Tech Stack: JavaScript, TensorFlow.js, Machine Learning, HTML/CSS.
– Developed AI-powered web application for automated waste classification using image recognition with 85%+ accuracy.
– Integrated real-time camera input for instant categorization of recyclable, organic, and non-recyclable waste.

TECHNICAL SKILLS

Languages: C, C++, Python, VHDL, SQL, JavaScript
Web Tech: HTML, CSS, JavaScript, Node.js, React, Web3.js
Tools / DB: Git, GitHub, MySQL, Linux (Ubuntu), VS Code, TensorFlow.js
Coursework: Data Structures & Algorithms, Computer Architecture, Operating Systems, Discrete Mathematics, Database Management Systems, Digital Logic Design
Other Skills: Technical Analysis, Market Structure, Multi-timeframe Trading, Machine Learning

COMPETITIVE PROGRAMMING

CodeChef: your username • 2-Star Coder (Rating: 1200)

ACHIEVEMENTS

– 1st Prize, Battle of Traders (Prometeo 2026): Secured top rank in IIT Jodhpur's flagship trading competition among 100+ participants with strategic market analysis and risk management.
– LNM Hacks 8.0 : Successfully completed and presented ViralTracks project for Monad blockchain track.
– Academic Excellence: Maintained high academic performance with 95.2% in Class XII and 91.0% in Class X.
– Competitive Programming: Active CodeChef participant with 2-star rating, demonstrating strong algorithmic problem-solving.

EXPERIENCE

Teaching Assistant – Python & Coding Hour — JK Lakshmipat University Jan 2025 – Present
– Mentoring 50+ peers in Python programming, data structures, and competitive programming techniques.
– Conducting weekly "Coding Hour" sessions to strengthen problem-solving skills and collaborative learning.

Member, Competitive Programming Wing — The Matrix (CP Club), JKLU Oct 2024 – Present
– Participating in club-organized contests, workshops, and algorithm sessions to promote competitive programming culture.
